Welcome

TO GOLDEN ISLAND

ISLAND KRK

THE LARGEST ISLAND IN THE ADRIATIC

This island, located in the northern part of the Croatian coast, is the closest island to Central Europe. The island is connected to the mainland by the "Krčki most" bridge (constructed in 1980) and by the airport in Omišalj. Krk island is a unique travel destination, easily accessible from all directions.

A mild and pleasant climate boasting many sunny days in a year, the lush Mediterranean vegetation, and the crystal clear Adriatic Sea attracts a great number of tourists every year.

A wide choice of entertainment possibilities and a variety of sport & recreational activities provide the ideal conditions for an active holiday in natural surroundings.

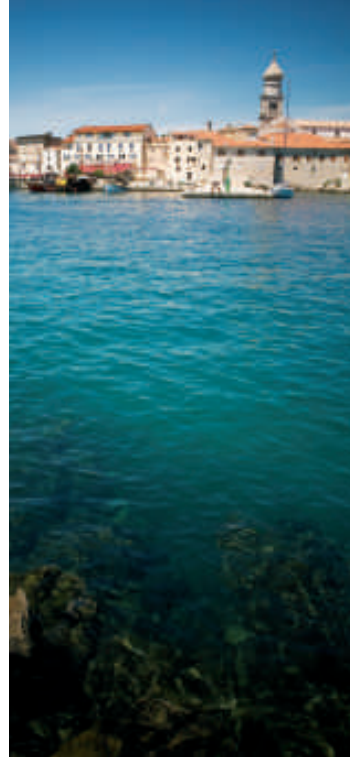

Krk is an island with a great historical and cultural heritage,
the first settlements dating back to the prehistoric era.

In past centuries the island was ruled by the Romans,
Illyrians, Venetians, Slavs, the Frankopan noble family and many others.
Special mention should be made to the Baška Stone (Bašćanska ploča)
in the village of Jurandvor, regarded as the birthplace of the Croatian script.
The stone or "tablet" is engraved in the Glagolitic alphabet.

Tourism on the island Krk has a hundred years old tradition,
and today it constitutes the cornerstone of the economy.
Particularly significant is the fact that Krk is the only Croatian island
that enjoys a growing number of tourists every year.

From this information
we can conclude that Krk island fully deserves
the attribute "Golden Island".

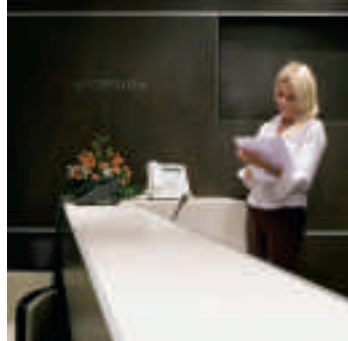

EXCLUSIVE CITY HOTEL

Hotel
MARINA
★★★★

The Hotel Marina is situated in a highly attractive location directly on the quayside in the centre of the town of Krk. It was built back in 1925, and was originally called " Hotel Jugoslavija." After a major face-lift it was renamed Hotel Marina.

The extensive reconstruction, renovation and decoration began in 2007 and was completed in 2008.

The old 2-star Hotel Jugoslavija became the luxurious, modern, exclusive 4-star Hotel Marina, with a style to satisfy the most discerning of tastes.

A close-up photograph of a sophisticated interior. In the foreground, a sofa is upholstered in a fabric with wide, bold vertical stripes in black and a golden-brown or tan color. A large, plush pillow with a complex, dark-colored floral or damask pattern on a light background rests against the back of the sofa. To the left, a lamp with a tall, textured, cylindrical shade and a dark, ornate base is partially visible. The background consists of heavy, vertically pleated curtains in a warm, golden-brown hue. The overall lighting is soft and warm, creating a cozy and elegant atmosphere.
